- https://naeemkhan.dev

I am a full stack developer with approximately two years of industry experience, proficient in various front-end and back-end technologies. Currently, I am pursuing a Master's degree in Computer Science with a focus on cyber security, aiming to expand my knowledge and gain valuable experience in the industry.

Work experience

01/2022 - 01/2023

Full Stack Developer
Archirodon Construction (Overseas) Company Limited Abu Dhabi, United Arab Emirates

Tech Stack: Python, Typescript, PostgreSQL, Microsoft Azure.
- Designed and developed a full-stack application using Django Rest Framework serving as the back-end REST API endpoint, and designed front-end components using Angular, with PostgreSQL used as the database.
- Implemented different testing strategies such as unit testing, end-to-end testing, integration testing using Factory Boy + Faker for Django, and Jasmine/Karma for Angular.

10/2021 - 12/2021

Software Developer Internship
Archirodon Construction (Overseas) Company Limited Dubai, United Arab Emirates
- Gathered project requirements and created a low-fidelity prototype for a custom ERP application for the company.

05/2019 - 08/2019

Junior Software Developer Internship
Chartercross Capital Management Dubai, United Arab Emirates
- Worked on multiple projects involving back-end and front-end web development using PHP and Python.
- Learned different frameworks, revamped different projects and helped train the new interns.

Education

04/2023
