

Cybersecurity MSc graduate with distinction in offensive security and GRC coursework (Pen Testing, ISMS, IT Audit). Developed security-hardened systems including an RBAC-based ERP that eliminated unauthorized data access. Seeking to apply technical and risk management skills as a SOC Analyst or GRC Consultant.

Education

- 04-2023 - 09-2024

MSc: Computer Science (Cyber Security)

SRH Berlin University of Applied Sciences Berlin, Germany

GPA: 1.8/5.0

Relevant Coursework: [Pen Testing](#) | [Security Tech](#) | [ISMS/ISO27001](#) | [ITSM](#) | [IT Auditing](#) | [Cloud Security](#)
- 09-2017 - 07-2021

BSc: Computer Science

Heriot-Watt University Dubai, United Arab Emirates

Work experience

- 10-2021 - 01-2023

Full Stack Developer

Archirodon Construction (Overseas) Company Limited Abu Dhabi, United Arab Emirates

Implemented RBAC-driven access controls in a centralized ERP system for 9 departments, minimizing unauthorized data exposure by restricting views/actions to job-critical functions.

Hardened API security in Python/Django backend: Sanitized inputs, implemented parameterized queries, and enforced HTTPS to prevent injection attacks.

Designed automated audit trails for all inter-departmental workflows, enabling real-time activity monitoring and accountability.

Proactively identified and patched vulnerabilities such as in JWT token generation frameworks during feature development.
- 05-2019 - 08-2019

Junior Software Developer Internship

Chartercross Capital Management Dubai, United Arab Emirates

Pioneered migration from legacy risk PHP to Django, then trained 3 colleagues in Python/Django to ensure seamless system ownership post-internship.

Sole PHP expert on the project: Independently maintained the legacy system before redesigning it into a modular Django application for easier team adoption.

Hard Skills

Incident Response
Penetration Testing
Ethical Hacking
Threat Assessment
Cyber Defense
Risk Analysis

Security Techniques

Reverse Engineering
Network Access Control
System Backup
Network Security
Threat & Vulnerability Management

Tools & Software

SQLMap
Metasploit
NMap
WireShark
DirBuster

Other Skills

Linux
Git
Docker + Kubernetes
VMWare
Microsoft Office

Hobbies

Astrophotography
Cycling
Home Automation
Cooking

Languages

English
C1
German
A2
